

Iowa State University of Science and Technology

Iowa State University of Science and Technology (ISU) was founded in 1858 as the land-grant institution for the State of Iowa (the first in the United States). ISU is one of the three state-supported universities in Iowa administered by the State Board of Regents. Iowa State employs 6,453 full-time and 9,663 part-time faculty and staff to serve its 30,708 students on a campus consisting of 1,770 acres and 11.6 million square feet of space. The nine major divisions of the university are the Graduate College and the Colleges of Agriculture, Business, Design, Education, Engineering, Family and Consumer Sciences, Liberal Arts and Sciences, and Veterinary Medicine.

The net book value of the university plant is in excess of \$1.7 billion. Anticipated operating expenditures for fiscal year 2023 are \$1.4 billion, about 17.4% of which will be funded by state appropriations.

Iowa State is a major research university including substantial international research and outreach programs. In addition, there are a number of federal facilities located on the campus and outlying research and experimental facilities and farms. The university is fully accredited by the North Central Association of Colleges and Secondary Schools and is a member of the Association of American Universities. Visit the university's web-site at www.iastate.edu for more information.
